# COBALT warranty

## LIFETIME FIRE GUARANTEE

Cobalt Safes backs all our fireproof safes with lifetime warranty against fire. Cobalt Safes will replace any Cobalt fireproof safe that has been damaged in a fire with the same or a comparable model to include all freight costs to the original address of purchase. Customers will be required to supply all requested documents to an authorized Cobalt Safe representative prior to replacement. Contact a Cobalt Safes representative at (888) 535-2545 for additional information or restrictions.

## LIMITED WARRANTY

Cobalt Safes warranties all parts and labor, excluding all digital components, on all safes purchased for a period of one year from date of purchase against any manufacture defects. We provide an extended four-year warranty on all replacement parts. Extended warranty excludes all digital components. Replacement of safe with the same or a comparable model during the extended four-year warranty will be subject to charges based on a pro-rated analysis. All digital components will only be warranted for a period of 90 days from date of purchase. Only digital components that are factory installed or installed by a Cobalt technician prior to shipment will be covered under this 90-day warranty. Cobalt Safes will not warranty any digital component installed on safes that are installed within the floor. This warranty does not cover any damages caused by mishandling, neglect, water, tampering, improper installation, removal and/or re-installation of the safe. Cobalt Safes must be notified within a period of 7 days of the receipt of any safe damaged during shipping in order to uphold the warranty and/or damage claims. Warranties on damage claims will only be accepted if the customer has properly executed the outlined Damage and Delivery Policy and Procedures. Re-setting of any combination on a Group II combination dial lock must be performed by a qualified locksmith otherwise the warranty will become void. This warranty is valid for the original customer of purchase and is non-transferable. At no time will the warranty cover more than the original purchase price of the safe. At no time will Cobalt Safes become liable for the cost of installation and/or removal of any Cobalt Safe or any contents or valuables that may be stored in any Cobalt Safe.

Cobalt Safes' sole discretion under this warranty, is at Cobalt Safes' own option and own expense. Cobalt Safes will repair the defective safe or part, will deliver to the customer the same or comparable safe or part for replacement of the defective part, or if neither of the two foregoing options is reasonably available, Cobalt Safes may, at its own discretion, refund to the customer the original purchase price paid for the defective safe. All safes or parts that are replaced or refunded will become the sole property of Cobalt Safes.

An authorized Cobalt Safes representative must approve all claims against Cobalt Safes. All repairs must be approved by a Cobalt Safe Representative before any warranty repairs can be completed. If a warranty repair is completed prior to obtaining an approval from Cobalt Safes, Cobalt Safes reserves the right to refuse payment to the service provider or reimbursement to the customer for any unauthorized repairs.

## WARRANTY CLAIMS

An authorized Cobalt Safes representative must approve all claims against Cobalt Safes.

# Delivery & Damaged

## SHIPPING & DELIVERY

All safe orders weighing 85 lbs or more are shipped via LTL Freight Carriers. The freight carrier provides either dock or curbside delivery based upon delivery location. Curbside delivery is defined as delivery of the freight as close to the actual delivery address as possible. Please remember the size of the tractor trailer and certain safety precautions may prevent the freight carrier from delivering the freight at the actual curb or delivery address. Lift-gate service is available at no additional charge and it is the sole responsibility of the customer to coordinate inside delivery of the freight with the trucking company, sub-contractors, and/or themselves. The freight carrier is not responsible for the inside delivery of any freight and inside delivery is not a service that Cobalt Safes offers.

Cobalt Safes utilizes the services of UPS Parcel on all safe orders weighing 85 lbs or less. All safes are shipped via UPS Ground for cost effectiveness. Safe shipment can be upgraded to Next Day or 2nd Day Air per customer's request and at cost to the customer, if available.

Any address corrections, re-consignments, or storage issues due to freight being undeliverable will not be the responsibility of Cobalt Safes and may result in additional fees. The customer will be contacted and advised of any additional fees prior to Cobalt Safes providing the freight carrier with any written or verbal authorizations regarding any changes in the shipment. Upon contact, it will be the responsibility of the customer to find a resolution to the issues in a timely manner. Cobalt Safes reserves the right to authorize the return of any freight found undeliverable where the customer, after repeated attempts, is found to be unavailable for contact. Customer will be charged for all freight to and from the point of delivery regardless if the buyer was eligible for free shipping in all instances where freight is determined to be undeliverable and is returned to any Cobalt Safes warehouse. Freight that is returned because it is deemed undeliverable will be subject to a 15% restocking fee.

## INSPECTION FOR DAMAGE PROCESS

In a timely manner all LTL Freight deliveries must be inspected for damage at time of delivery. All packaging should be inspected for any noticeable signs of damage to include tears, indentions, and friction marks to the packaging. All freight shipped by Cobalt Safes is shipped in an upright manner and is never wrapped in plastic. Any signs of damage to the packaging, freight not being delivered upright, and/or freight wrapped in plastic are justified reasons for the customer to require further inspection of the actual freight itself. All damaged freight must be refused at time of delivery. If the damage is minimal and acceptable to the consignee, they will be required to make note of the damage on the delivery receipt at time of delivery prior to signing the delivery receipt. Under no circumstances shall the consignee discard the pallet or packaging material until the safe has been determined to be in good working condition and/or all claim issues have been resolved. When the delivery receipt is signed by the consignee without any notes of exception to the damage it clearly states that the freight has been received by the consignee in good condition. Failure to follow the procedures above will remove all liability of damage from Cobalt Safes and require the consignee to file any claims against the carrier themselves.

For all parcel shipments, the customer must notify Cobalt Safes of any damages within 24 hours of receipt. Customer will also be required to provide Cobalt Safes with a brief description of the damage. If the customer declines to keep the damaged safe, it will be the customer's responsibility to repackage and hold the safe until a claim can be submitted and UPS Parcel can retrieve the damage safe, this process can take approximately 10 - 14 business days.

## RETURNS

Safes can be returned for a period of 14 days from the date of delivery. All returns must be approved by an authorized Cobalt Safes representative and returned with a required return authorization number. Safes must be returned in the original packaging and must be received in an approved Cobalt Safes warehouse undamaged and unused within 7 days of the issuance of the return authorization number. All freight charges are non-refundable. All safe returns are subject to a 15% restocking fee. In addition, if the returned safe is received by Cobalt Safes damaged it may be subject to additional fees. These fees will be determined by an authorized Cobalt Safes representative and will be prorate according to the extent of damage. Customers will be charged for freight to and from the point of delivery regardless if the buyer was eligible for free shipping. All freight charges will either be prepaid by the customer directly to the carriers or will be deducted from the safe refund. Credits will only be issued upon receipt and inspection of any/all returned safe(s).

# “L” Series Gun safes

Our Diamond Back “L” Series are designed to be tough and durable at a reasonable price. They have (9) 1-inch solid steel chrome plated bolts which provides great strength in securing the door against prying attacks. The universal interior provides you with the choice of storing all long guns or adding additional adjustable shelves to help accommodate the storage of all other valuables. All of our “L” Series safes feature (1) layer of fire-proofing, which will help to protect your contents for 30 minutes in the event of a fire.

## FEATURES

- (6) 1" Active Locking Bolts
- (3) 1" Inactive Locking Bolts on Hinge Side
- Bolt Coverage on 3 Sides of the Door (Outer, Top, and Hinge Side)
- Drill Resistant Hard Plate
- Heat Activated Expandable Door Seal
- (1) Layer of ½" Fireboard
- Heavy Duty Solid Steel External Hinges
- Brass Handle
- Durable Black Paint Finish
- Universal Plush Carpeted Interior
- Adjustable/Removable Shelves
- Removable Gun Rack
- (4) Pre-drilled Anchor Holes
- (1) Pre-drilled Hole for the Installation of a Dehumidifier

## LOCK DETAILS

- Brass Digital Keypad

## AVAILABLE OPTIONS

- Extra Shelves, Dehumidifier, Pistol Racks

**LIFETIME FIRE &  
BURGLARY GUARANTEE**  
**1 YEAR FULL WARRANTY**

## FEATURES

- Made in the USA
- Gently Cradles your Handguns
- Great for Display or for Gun Safes
- Keeps Your Collection Neat and Increase Storage Space
- The Rack Helps Prevent Rusting During Storage by Getting off the Shelf, Out of a Holster/Case and Allows Air to Circulate Around the Guns.
- Protects Your Guns from Scratches
- Hydrophobic PVC Coating Stops Moisture from Collecting, and Protects Finishes
- Heavy Duty Steel Construction
- Weight: 2 lbs.

# Diamond Back warranty

## **LIFETIME FIRE AND BURGLARY GUARANTEE**

All Diamond Back Gun Safes are backed by a lifetime warranty against fire and burglary. Diamond Back Safes will replace any Diamond Back Gun Safe that has been burned in a fire, damaged during a break-in or an attempted break-in with the same or a comparable model to include all freight costs to the original address of purchase. Customers will be required to supply all requested documents to an authorized Diamond Back representative prior to replacement. Contact a Diamond Back representative at (888) 535-2545 for additional information or restrictions.

## **LIMITED WARRANTY**

Diamond Back Safes warranties all parts and labor, excluding all digital components, on all Diamond Back Safes purchased for a period of one year from date of purchase against any manufacture defects. All digital components will only be warranted for a period of 90 days from date of purchase. Only digital components that are factory installed or installed by a Diamond Back technician prior to shipment will be covered under this 90 day warranty. Diamond Back Safes must be notified within a period of 7 days of the receipt of any safe damaged during shipping in order to uphold the warranty and/or damage claims. Warranties on damage claims will only be accepted if the customer has properly executed the outlined Damage and Delivery Policy and Procedures. Re-setting of any Group II combination dial must be performed by a qualified locksmith otherwise this warranty will become void.

## **LIFETIME FIRE AND BURGLARY GUARANTEE & ONE YEAR WARRANTY INCLUSIONS**

Diamond Back Safe reserves the right to make the final judgment on all warranty issues due to the many variables of circumstances that may arise during the damage of a safe to include the right to refund the original purchase price of the safe to resolve a conflict. At no time will Diamond Back Safes be liable for the cost of installation and/or removal of any Diamond Back Safe. This warranty does not cover any damage due to neglect, water damage, tampering, mishandling, abuse, improper installation, removal and/or reinstallation of safe. All warranty issues must be approved by a Diamond Back Safe representative before any warranty repairs can be completed. If a warranty repair is completed prior to obtaining an approval from Diamond Back Safes, Diamond Back Safes reserves the right to refuse payment to the service provider or reimbursement to the customer. At no time will this warranty cover more than the original purchase price of the safe. Diamond Back Safes is not responsible for any contents or valuables that may be stored in the safe at the time damage occurs. Contact an authorized Diamond Back Safe representative for further details at (888) 535-2545. All warranties are valid for the original customer of purchase and are non-transferable. This warranty is only valid on Diamond Back Gun Safe purchases made after June 15, 2008.

## **WARRANTY CLAIMS**

An authorized Diamond Back Safe representative must approve all claims against Cobalt Safes.

# PRIVATE *label* Safes

# Fireproof Home safes

# Private Label warranty

## LIMITED WARRANTY

Private Label Safes warranties all parts and labor, excluding all digital components, on all Private Label Safes purchased for a period of one year from date of purchase against any manufacture defects. All digital components will only be warranted for a period of 90 days from date of purchase. Only digital components that are factory installed or installed by a Private Label technician prior to shipment will be covered under this 90 day warranty. Private Label Safes must be notified within a period of 7 days of the receipt of any safe damaged during shipping in order to uphold the warranty and/or damage claims. Warranties on damage claims will only be accepted if the customer has properly executed the outlined Damage and Delivery Policy and Procedures. Re-setting of any Group II combination dial must be performed by a qualified locksmith otherwise this warranty will become void.

## ONE YEAR WARRANTY INCLUSIONS

Private Label Safes reserves the right to make the final judgment on all warranty issues due to the many variables of circumstances that may arise during the damage of a safe to include the right to refund the original purchase price of the safe to resolve a conflict. At no time will Private Label Safes be liable for the cost of installation and/or removal of any Private Label Safe. This warranty does not cover any damage due to neglect, water damage, tampering, mishandling, abuse, improper installation, removal and/or reinstallation of safe. All warranty issues must be approved by a Private Label Safe representative before any warranty repairs can be completed. If a warranty repair is completed prior to obtaining an approval from Private Label Safes, Private Label Safes reserves the right to refuse payment to the service provider or reimbursement to the customer. At no time will this warranty cover more than the original purchase price of the safe. Private Label Safes is not responsible for any contents or valuables that may be stored in the safe at the time damage occurs. Contact an authorized Private Label Safe representative for further details at (888) 535-2545. All warranties are valid for the original customer of purchase and are non-transferable.

## WARRANTY CLAIMS

An authorized Private Label Safe representative must approve all claims against Cobalt Safes.
