Users Guidance

RoHS

A. CODE

A1 How to open?

- 1) Touch **SCREEN → USER CODE → OPEN**
 - 2) Turn knob(key of handle) clockwise and open the door.
- 🔴 1. If a wrong code entered, bi-ric sound and **ErrOr** on FND.
2. If wrong codes entered 5 times, TFL paralyzes 5 minutes.
- * PARALYSIS : 1) No response against screen touch.
2) Paralysis time appears on FND **5-4-3-2-1** per minute.
3) After 5 minutes, paralysis gets normal.

A2 How to enter a user code? : Door open

- 1) Press **M** button on the door back.
 - 2) Touch **New CODE → ENTER**
- 🔴 Prior to closing the door, please confirm with **A1 Opening instruction** if the **new code** registered correctly.

A3 How to lock?

- Model 119~530 : Close the door and turn knob(key of handle) counter-clockwise.
- Over model 006 : Closing the door, it automatically locks.

B. FINGER PRINT

B1 How to enter finger print? : Door open

- 1) Press **M** button on the door back.
 - 2) Touch **3 → ENTER → USER CODE → ENTER**
 - 3) Scan **FINGER PRINT** twice
- 🔴 1. Please confirm with **B2 Opening Instruction** if the finger print correctly registered.
2. Worn-out Finger Print can't be entered.
- * 128 finger prints are acceptable.

B2 How to open with finger print?

- 1) Touch **SCREEN**
 - 2) Scan **FINGER PRINT**
 - 3) Turn knob(key of handle) clockwise and open the door.
- 🔴 1. If a wrong finger print entered, bi-ric sound and **ErrOr** on FND.
2. If wrong finger prints entered 5 times, TFL paralyzes 5 minutes.
- * PARALYSIS : 1) No response against screen touch.
2) Paralysis time appears on FND **5-4-3-2-1** per minute.
3) After 5 minutes, paralysis gets normal.

B3 How to delete finger prints? : Door open

- 1) Press **M** button on the door back.
 - 2) Touch **ENTER → 3 → ENTER**
- 🔴 If one finger print is removed, all the registered finger prints are erased simultaneously.

C. THE OTHER FEATURES

C1 Dual Locking : Two different codes required.

- Enter 2nd code **M → 2 → ENTER → 2nd CODE → ENTER**
 - To set or unset dual locking? **M → 9 → ENTER**
- 🔴 When Dual Control unsets, the 2nd code is automatically removed.
- To open in dual locking? **SCREEN → 1st CODE → OPEN → 2nd CODE → OPEN**
- 🔴 In dual locking state, impossible to unlock with finger print.

C2 Code and Sound Hide : To set or unset **M → 7 → ENTER**

C3 Scramble Numbers : When opening a safe, unlimited scramble numbers can be put **before and/or after the real code** to avoid peeps.

C4 Reset Function : When TFL doesn't react, press the reset button to initialize the lock.

C5 Alarm setting : If a safe is tilted over 45° or impacted, the built-in alarm honks.

- To set **M → 8 → ENTER** To unset ① **SCREEN → USER CODE → OPEN** ② **SCREEN → FINGER PRINT SCAN**
③ In dual locking state, **SCREEN → 1st CODE → OPEN → 2nd CODE → OPEN**

🔴 Alarm honks 3 hours. If it is considered the alarm has honked over 30 minutes, the batteries must be replaced.
